

@task Receives TopTenREVIEWS Gold Award for Project Management Software

OREM, Utah – September 17, 2007 — @task, the flagship product of AtTask, Inc., has been awarded the TopTenREVIEWS Gold Award for project management software. @task bested Microsoft Project (Silver Award) in areas such as feature set, help/support, and collaboration in order to take the highest rating.

"@task is an all-inclusive and customizable project management solution that is sure to open the avenues of communication and increase productivity in your business," writes TopTenREVIEWS. "If you're the type of project manager that's big on collaboration, then @task is what you need. It's ideal for creating an environment where employees and management can easily keep in touch with the project's progress."

TopTenREVIEWS analyzes project management software in seven areas:

- Ease of use
- Feature set
- Ease of installation
- Help/support
- Project management
- Resource management
- Collaboration

@task received perfect scores (4/4) in six of the seven categories and nearly perfect (3.5/4) in one. In addition, @task was the only software to provide every single feature on the TopTenREVIEWS project management software checklist.

"TopTenREVIEWS is a well-trusted resource that millions of people turn to for in-depth product research," said Scott Johnson, CEO of AtTask. "It's very satisfying to get recognized by such a distinguished organization."

Abe Knell, VP of Sales, agrees. "It's exciting to see @task acknowledged by such a well-known organization as TopTenREVIEWS. @task was born out of necessity for a project and portfolio management system that provided a collaborative environment with complete transparency for its users. Receiving TopTenREVIEWS' Gold Award is confirmation that @task is setting a new standard for business intelligence solutions."

In its review, TopTenREVIEWS recognized many of @task's unique features, including its multiple language support: "This is one of the few products that supports multiple languages. @task supports Japanese, German and French and will soon support Spanish and Chinese."
